

Make your own animal mask!

Source: www.FirstPalette.com

1. **Choose and colour** in your favourite animal.
2.  **Cut out the mask.**
Make sure you ask a grown up or to help you cut out the eye holes, these are tricky!
3. **Strengthen the holes for the string.**
Have you seen the little circles on each side of the mask? These are the spots where you will be punching holes & attaching the elastic string. As paper masks tear easily, put some clear tape around these holes to reinforce these holds..
4.  **Punch the holes**
Now you can punch a hole on either side on the pair of marked circles, we might need a grown up for this part too!
5. **Tie the string**
Tie the ends of an elastic string on each hole.
6. **Try on your animal mask.**
Now for the fun part! Try on your new mask. It should fit snugly but not too tight. Adjust the length of the string if necessary.

**If you are not comfortable wearing the mask directly on your face, you can create a handle and hold the mask in front of your face instead. Glue a straw, a craft stick, or an unsharpened pencil, at the back of the mask.*
