

Farm Yard Safety

Objective

Dividing a farm into zones, the children will identify hazards on a working farm and to recognise the different signs used to warn of danger.

Props

Each child can cut out and colour in the hazard signs in the Farm Safety Signs activity.

Getting Started

On a blackboard list the following 'Farm Yard 'Zones'. The Chemical Shed; The Slurry Pit; The Animal Pen; The Field; The Hay Barn and 'The Machinery Shed'.

Now divide the class into groups assigning one zone to each group. Ask each group to name the dangers typical to their zone. Write the answers down on the board under the 'zone' they would be found in. eg. Tractors, bulls, machinery, slurry, pesticides, electricity, etc.

Now ask the children to hold up the safety sign or signs relevant to each zone. See if the children can remember some of the safety measures for each zone, eg. What to wear with chemicals, agitation of slurry, etc. The pictures may help them!

Remember: some dangers may be prevalent in more than one zone!

The Farm Yard Zones – The Chemical Shed

The Farm Yard Zones – The Slurry Pit

The Farm Yard Zones – The Animal Pen

Please
disinfect
your boots

Now wash
your hands

The Farm Yard Zones – The Sheds (bale and machinery)

Eye protection
must be worn

The Farm Yard Zones – The Fields

Signs – Know your colours!

- Red for prohibition
- Yellow for caution
- Blue for mandatory actions

Eye protection
must be worn
